DOCUMENTARY,
STREET, AND
ART PHOTOGRAPHY.

A R T I S T S T A T E M E N T

As an artist, my work has continuously resided where fine art and documentary meet. I aim to capture various communities through the camera to better understand their way of life, tell their stories, and highlight what makes us all human. I work to create a balanced view of my subjects, trying not to glorify or demonize any subject. I also aim to create beautiful, emotional images that deliver deeper within themselves. By shedding light on the beauty, struggles, and triumphs of those I photograph, I aim to promote empathy, compassion, and a greater sense of connectedness between us all.
